

High speed units up to 20 m/min available

Also available as 230V, 1-phase, 50 Hz (25% ED) version.
Optionally available with electric trolley.

Options

- Stainless steel load chain (no reduction of working load limit).
- Suspension hook
- Flexible chain container.
- Other operating voltages.
- Counter for operating hours and number of starts.
- Radio remote control
- Control for synchronized operation of several hoists.
- Manual and electric trolleys.
- Connection to festooned cable systems.
- Suspension for light crane systems.

Electric chain hoist model CPV with suspension lug or with integrated trolley

Capacity 250 - 2000 kg

The electric chain hoist model CPV combines modern design and technical innovation. A robust construction makes the series a versatile tool for professional applications.

The integrated limit switch for the highest and lowest hook position considerably extends the working life span of the slip clutch, motor and gearbox.

Features

- Classification: 1 Am/M4 (standard), resp. 1 Bm/M3 (for 230V, 1-phase, 50 Hz). As required (with appropriate changes to lifting capacity resp. duty cycle) the model CPV can also be re-classified up to 3 m/M6.
- Main contactor as standard, for increased safety.
- Increased operating safety through 42V control voltage (low voltage control), push-button pendant control, IP 65.
- 2 year warranty (excluding wear parts) and a lifetime lubricated gearbox.
- Duty cycle 50% ED for single speed.
- Electromagnetic spring pressure brake holds the load safely even in the event of power failure.
- Standard operating voltage: Euro-voltage 400V, 3-phase, 50 Hz, alternatively 460V, 3-phase, 60 Hz. Single speed motors reconnectable to 230V, 3-phase, 50 Hz.
- Motor protected to IP 55 (acc. to VDE 0530), against ingress of dust and water jets.
- The externally adjustable slip clutch is designed to guarantee a permanent connection between the load and the brake.
- The standard, oil bath lubricated and case hardened gearbox has a helical gearing for particularly smooth running and enhanced lifetime.
- Suspension lug for compact dimensions and easy integration in closed-eye constructions.
- Chain guide made of fibre coated polyamide for increased wear resistance.

Festooned cable systems see pages 138-139.

*Weight at standard lift (3 m). Other lifting heights on request.

**For trolleys type A and B: Additional weight for geared trolley (VTG): 2.5 kg

***For electric trolley (VTE) with 2 speeds +2.0 kg

****Lifting speed CPV 10-8 at 230V, 1-phase, 50 Hz = 4 m/min – Lifting speed CPV 20-4 at 230V, 1-phase, 50 Hz = 2 m/min

Yale hoists and trolleys are not designed for passenger elevation applications and must not be used for this purpose.

Increased operating safety through 42V control voltage

Externally adjustable slip clutch.

Integrated limit switch

Depicted suspension hook and chain container optionally available.

Encapsulated pendant control. Option: radio remote control (in combination with integrated trolley).
